

CLOSING IN ON STRATEGIC BASE

FRANCO-AMERICANS MOVING CLOSER TO FERE-EN-TARDENOIS

While Allied Artillery and Airmen Subject City to
Terrific Bombardment, Infantry Advances
Eastward and Northward, Overcoming Enemy
Resistance.

CAPTURE OF EPIEDS AIDS' MOVEMENT

(By United Press)

Paris, July 25.—4:05 p. m.—French and American troops are closing in on the important German strategic base of Fere-En-Tardenois from two sides. While the allied artillery and airmen are subjecting the city to a terrific bombardment, the infantry is advancing eastward and northward toward the city, slowly overcoming the enemy defense.

The capture of Epieds has enabled the French and Americans to penetrate the center of Fere forest, five miles directly south of Fere-En-Tardenois.

A strategic enemy map estimated that twenty divisions, 240,000 men, are expected soon to aid in a counter maneuver.

London, July 25.—German power is now on the down curve, it was learned semi-officially today. The casualties of the storm troops are especially heavy. So far in the present fighting the enemy has used 64 divisions or 768,000 men from four army groups.

Force Huns Back 2 Miles

Washington, July 25.—Northwest of Jaulgonne American troops have forced the Germans back to a depth of from one to two miles. General Pershing reported today under date of July 24.

The communication follows:

"Between the Ourcq and the Marne our troops participated in local combats which resulted in further forcing back the enemy line."

"Northwest of Jaulgonne the enemy positions were penetrated to a depth of from one to two miles."

Fere-En-Tardenois Under Fire

With the Americans in France, July 25.—Fere-En-Tardenois is under fire from Franco-American artillery and is being heavily bombed by allied aviators. The bombardment is seriously interfering with the movement of enemy troops and materials.

It is the most important railway and highway center within the Soissons-Rheims salient. It is ten miles north and slightly east of Chateau Thierry. The allied lines are less than five miles to the west and only a little more than that to the south.

Heavy fighting is under way to clear Riz forest northeast of Jaulgonne following the capture of its southern end, during which additional guns and prisoners were taken.

The bridgehead at Jaulgonne has been enlarged. French and American troops are advancing there despite sharp rear guard action.

516,000 Men in The Pocket

With the French Army, July 25.—The allies continue their relentless pressure against the passes into which the crown prince's inglorious fadensturm led hundreds of thousands of hopeful German soldiers.

One point after another is giving away before this pressure. The measure of the resistance the Germans are able to offer between Rheims and Soissons, which likewise is the measure of the danger of

SWALLOWS ACID AND DIES IN SHORT TIME

Mrs. William Coers of Orange Township Believed to Have Been De-
spondent Over Son Going to War

WAS ALONE IN THE HOUSE

An hour after she had swallowed a quantity of carbolic acid. Mrs. William Coers died this morning at nine o'clock at her home in Orange township, two and a half miles south of Manilla.

Worry concerning her son Oris, who is one of the new registrants of the 1918 class one men about to be called to a training camp, is believed to have been the cause for her act as she apparently had grown exceedingly depressed and despondent during the past few days.

At the time Mrs. Coers took the acid she was alone in the house, her daughter and mother-in-law, Mrs. John Coers being in the yard a short distance from the home. On entering the house, Mrs. John Coers found the victim lying unconscious on the floor. Medical aid was summoned at once from Manilla but her condition had grown so serious that it was impossible to remedy her condition and death resulted shortly after Dr. John Green had reached the home.

Surviving the deceased are her husband, William Coers; one daughter, Pearl Coers; one son, Oris Coers; her father, Mathew Dewester of Manilla; two sisters, Mrs. Lena Baker of Manilla, and Mrs. John Jordon of Terre Haute and one brother, Oscar Dewester of Manilla.

PROCEEDS FOR RED CROSS

The annual Edinburgh races will be held July 31, August 1 and 2, according to an announcement sent here by W. D. Wells, treasurer of the association. The net proceeds of the races will be given to the Red Cross.

FOR UNIVERSAL TRAINING

New Fight is Brewing in Congress
and Bill is Prepared.

(By United Press)

Washington, July 25.—A new fight for universal military training is developing in Congress. Universal training advocates, it became known today, have a new bill ready to introduce about the same time the man power legislation comes out of committee in September.

An attempt to have this bill considered as an amendment to the measure changing the selective service ages will be made if the least opportunity arises.

LIGHTS TO BE CUT 6 NIGHTS IN WEEK

Fuel Administrator and City Officials Decide Today to "Go Fuel Administration One Better"

FULL STEAM AHEAD SATURDAY

Order Will be Enforced to Last Degree Regarding Decorative Lighting Mondays and Tuesdays.

That the dimmers are to be placed on the bright lights of Rushville six nights during the week instead of two as requested by the Hoosier fuel administration, was the decision reached this morning at a conference between S. L. Trabue, county fuel administrator, and the city officials.

Official orders were received today by the county fuel administrator concerning the lightless night order, to become effective next Monday and Tuesday nights, and to be continued on those evenings until further notice.

On the two nights specified the order will be enforced in Rushville and through the county to the last degree, which includes the cutting down of the public lighting system to those necessary to public safety only. This includes city lighting as well as lighting in stores and for decorative and advertising purposes.

On all other nights with the exception of Saturday the official have decided that the conservatory program shall still remain enforcement although somewhat more conservatively. The order applies to the entire county for Monday and Tuesday evenings and Administrator Trabue suggests that as a patriotic measure, which has promoted a wider conservation program in this city, the same rulings should be enforced in the surrounding towns through the county and that general conservation rules be observed whenever possible.

The orders for Rushville to become effective next Monday, July 21, which may be subject to modification from time to time, as drawn up by the fuel administrator and the city officials, follow:

"All cluster lights in the downtown streets, with the exception of the top light shall be discontinued every night with the exception of Saturday night when the cluster will be used from eight until eleven o'clock.

"The general street lighting shall be continued each evening Monday and Tuesday inclusive, but each night shall be discontinued at midnight.

"On nights for strict fuel conservation, no lighting of store windows nor lights for decorative purposes shall be used, and on other evenings a general conservation will be en-

NEED A RESERVE OF STEEL

Director General Schwab Says Exportation Delays Ship Building

(By United Press)

Philadelphia, July 25.—Charles M. Schwab, director general for the emergency fleet corporation, returned here today after an inspection of the Pacific coast ship yards, and declared that not one ounce of American steel should be sent to foreign markets until shipyards here had accumulated a reserve of at least 60,000 tons.

Exportation of steel, he said, is hampering the ship building program.

FORECASTS HEAVY DRAFT FOR AUGUST

Provost Marshal Instructs Board Not To Release Men in Quota For Navy, Marine or Fleet.

CALL TO BE AS BIG AS JULY

Sixteen Registrants Are Already Called For Next Month—Two Quotas Yet This Month.

Forecasting a heavy draft on class one registrants next month, the provost marshal has issued instructions to local army boards, which have been received here, ordering them to refuse releases to join the navy, marine corps or emergency fleet corporation to any registrants of the 1917 or 1918 class who has been or will be put in class one until a sufficient number of men physically qualified for general military service are in sight to fill promptly and properly all calls up to August 31, with a generous allowance for physical rejections at the camp.

The instructions state that August calls will be as heavy as July because Indiana will have to supply approximately 8,500 white men and a proportionate number of colored men next month.

Full speed ahead is urged in the classification and physical examination of the registrants of this year's class. The local board needs no such admonition because all registrants of June 5 last have been classified and all in class one have been given physical examinations with the exception of those with appeals or agricultural claims pending before the district board.

Approximately fifty men will be inducted into the service by the local board this month, so a call for at least that many men may be anticipated for next month. Today's increment of forty sent to Camp Taylor is the largest single increment of the month, and in addition there have been a few calls for small numbers to take special training as mechanics. Two other increments are to leave this month, one composed of two limited service men who go to Syracuse, N. Y., July 31 and the other composed of two band saw filers who will go to Vancouver, Washington.

The train schedule for the limited service men's detachment arrived today. They will leave over the C. I. & W. at 3:30 p. m. July 31 and arrive at Syracuse 10:55 a. m. August 1. They will mobilize at the New York state fair grounds. These men are to be used for fire and guard companies at ports of embarkation.

On nights for strict fuel conservation, no lighting of store windows nor lights for decorative purposes shall be used, and on other evenings a general conservation will be en-

THOUSANDS SAY FAREWELL TO BOYS LEAVING FOR TRAINING

Carrying The Time On His Wrist And Didn't Know It.

"What time is it?" called one of the conscripts from the window of the special train as it stopped at the station this morning.

"You're carrying it on your wrist now, brother," volunteered a bystander and blushing like a school boy who had donned his first lengthy trousers, one of the latest Hoosier soldiers who had forgotten for a moment the presence of the shiny new watch endeavored without much success to keep the watch from protruding beneath his cuff.

They're in the army now, however, and men who formerly scoffed at the wrist-watch idea have decided that it all goes in the game of war, for as the arms of the selectives rested on the sill of the window and the train steamed out of the city, on each wrist there loomed up a watch so painfully new that the leather casing seemed to squeak in rhythm with the train as it moved away.

HOWARD JOHNSON IS KILLED BY INTERURBAN

Son of Mr. and Mrs. Brack Johnson of This County Dies Instantly When Car Hits Buggy

ACCIDENT AT 1:30 A. M. TODAY

Howard Johnson, 21, son of Mr. and Mrs. Brack Johnson of this county, was instantly killed this morning about 1:30 o'clock when a T. H. I. & E. traction car crashed into the buggy in which he was riding.

The accident occurred on the national road near Lewisville just across the Rush county line in Henry county.

Johnson had spent the evening in Knightstown and was returning to his home in the northern part of this county. He had fallen asleep, leaving the horse to find its way home, and did not hear the approaching car which was upon the buggy before the motorman could turn off the power.

The buggy was torn to pieces and parts of it dragged several yards down the track in front of the car.

Johnson was alone in the buggy and when inmates of the traction car found his body, lying at the side of the road, he was dead. It is believed that death was instantaneous.

The deceased is survived by his parents, one brother and one sister.

ACCIDENT VICTIM IS DEAD

Mrs. Mary C. Lowe, 38, who suffered internal injuries in the automobile accident Sunday night when her husband and daughter were killed, died this afternoon at three-thirty o'clock of internal injuries at the home of Gilbert Boys. The body will be taken to Cynthiana, Ind., tomorrow for burial.

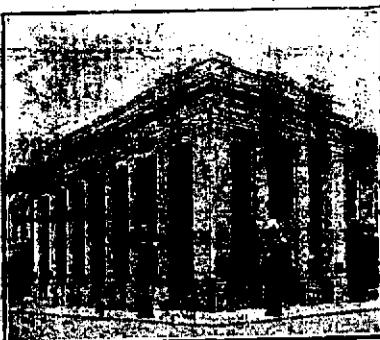

FORBIDDEN IN POLAND

(By United Press)

Amsterdam, July 25.—Monsignor Ratti, papal investigator has been forbidden to visit Poland where he had been instructed to make investigations of conditions, according to dispatches today from Moscow. Protests have been launched with the government of Warsaw.

Plenty of Heat in the coldest weather

New exclusive feature furnace which insures perfect heating service, ease of operation and fuel economy.

If you give first consideration to the ability of a furnace to give successful heating results, the installation of a Williamson 100 Series furnace will bring satisfactory results.

It has many features which will insure not only perfect heating service but ease and economy of operation as well.

The extra large casing gives the furnace unusual heating capacity.

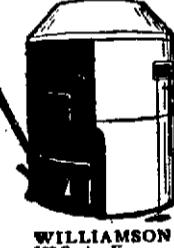

A new and improved device makes cleaning quick and easy without the usual muss.

This cleaning device keeps the furnace free from soot and assures far better heating results with less fuel.

The extra large feed door makes stoking easy and the improved shaking and dumping device is easily and conveniently operated from a standing position.

If you want a furnace upon which you can depend to give results—see this Williamson 100 Series.

ALLIES CONFRONTED BY NEW DEMANDS

Anti-Bolshevik Government Springs Up, Complicating Negotiations Over Siberian Question.

NONE TO BE RECOGNIZED NOW

(By United Press.)

Washington, July 25.—On the eve of expected action in Siberia, the allies are confronting demands for recognition from a new anti-Bolshevik government springing up all over Russia.

It is indicated in diplomatic quarters, however, that the allies will pursue a course officially recognizing no particular government but work through the people as a whole.

The president today visited the state department where he conferred with acting Secretary of State Polk, Secretary Baker and British Ambassador Lord Reading.

No announcement was forthcoming when the president left the conference.

Japan's Reply Here

Washington, July 25.—The text of Japan's reply to President Wilson's proposal for aid to Russia has been received by this government, it was learned today. It has not yet been determined whether it will be necessary to negotiate further with Japan before this government outlines the scope of its program of aid.

U.S. DEPT. OF AGRICULTURE HOW TO CANNING

Vegetable Mixtures

Attractive and economical vegetable mixtures to be served in salads, with omelets, scalloped dishes, and garnishes for meat dishes can be canned at home. This by-product may be canned often when small quantities are left from packing different vegetables whole. Any desired combinations may be made. Vegetables maturing in the same season should be used. A good combination for the spring would be carrots, peas, string beans, and onions. A mixture which could be made from the fall garden might consist of peppers, celery, onions, small Lima beans. (Beets can not be used in such mixtures because they discolor the entire contents of the jar.) All these vegetables are prepared separately as for canning and packed in layers in previously boiled jars. Each layer should be packed as tightly as possible before the next is added. When the jar is filled, cover with brine (2 1/2 ounces of salt to 1 gallon of water.) Partially seal jars.

Processing with steam under pressure is recommended. Process pint jars 45 minutes under pressure of 10 pounds. Seal immediately and cool in a draft-free place. When cold test for leaks, and store in cool, dark, dry place.

If the intermittent boiling process is used, boil for 90 minutes on the first day, and 60 minutes on the second and third days. Before each subsequent boiling the covers must be loosened, and after each boiling the covers must be securely tightened to make sealing complete. Cool test for leaks, and store.

If a single-period boiling process is used, place jars in the canner and boil for at least three hours. Seal cool, test, and store.—U. S. Department of Agriculture.

News of Colored Citizens

The fourth of the series of entertainments being given at the Second M. E. church will take place tomorrow night, when the feature of the program will be a jubilee concert under the direction of the Choral Society, and the closing number will be the play, "Drafted." The program will begin promptly at 8:30 o'clock and all friends are cordially invited to attend.

FORECASTS HEAVY DRAFT FOR AUGUST

Continued from Page 1.
day. Connersville and Liberty each will send two men on this call on the same train.

Sixteen registrants have already been called for next month, so that it is probable that future August calls will not be for more than thirty-five men. Six mechanics are to be sent to Valparaiso on two different calls, three to Indianapolis and three to Cincinnati. One colored man is to be sent to Fort Dodge, Iowa, and three white men to Fort Thomas.

The board announced today that Roseco McDaniel of Arlington, Ben Sterling of Milroy and Carl Vanatta of New Salem have been selected to fill the Fort Thomas call and will be sent to camp some time during the five-day troop movement beginning August 5.

NIGHTS TO BE CUT 6 NIGHTS IN WEEK

Continued from Page 1.
"ordred."

Administrator Trabue has been advised by the state fuel administrator that any non-observance of the order must be reported to headquarters at once in order that steps may be taken to see that there is a uniform observance throughout the state. The fact that Rush county is ready to observe the conservation orders on six instead of two nights as requested, points to the fact that there will be no difficulty between the administrator and the consumers.

"Unclaimed Goods" Tonight.

Vivian Martin will appear in "Unclaimed Goods" at the Princess theater tonight. It is the story of a beautiful girl who was sold for unpaid express charges. In addition the allied war review composed of official pictures issued by the governments fighting Germany, will be shown. Pauline Fredrick will be here Friday in the beautiful picture "La Tosca."

JOINS THE NAVY

Glen Snelser of near Falmouth, who is in class two of the selective draft, yesterday enlisted in the navy in Indianapolis and expects to be called to the Great Lakes training station in a few days. He was originally in class three because of an agriculture claim, but lately was reclassified and moved up to two.

WANTS TO KNOW ABOUT FRAUD

(By United Press.)

Washington, July 25.—Disclosure of fraud in connection with army contracts today called forth a resolution from Senator King of Utah inquiring of the secretary of war whether any commissioned officers were receiving compensation from firms holding government contracts.

Philip Heeb, 206 Buena Vista Ave., was stricken with paralysis this morning shortly before eleven o'clock in his vehicle repair shop in South Main street. He was found unconscious and was removed to his home where it was learned that the stroke was a light one. Several years ago Mr. Heeb suffered a similar paralytic stroke.

Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

old-time confidence and energy in less than two weeks.

No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original pack of Bio-feren at once. Take two tablets after each meal and one before bed-time—seven a day for seven days—then one after each meal till all are gone.

Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned.

This is the new discovery that pharmacists are recommending because it is not expensive and speeds up vital vigor and ambition into people who despair of ever amounting to anything in life.

For whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their

Reaching Small Units

Accenting the importance of township and community councils of defense, the Indiana State Council of Defense has just issued a general bulletin urging that this work be enlarged and extended in order to "ultimately reach the most remote citizen and make him a part of the council of defense system."

The bulletin declares that the Federal Government is relying more and more upon the state councils of defense system "to conduct the war programs in the states" and to maintain the morale of all citizens under the strain of war." The State Council, in turn, informs the county councils that this reliance is based principally upon the smaller units, and will prove justified exactly in proportion to the effectiveness of the smaller organizations.

"In this great international contest of resources, it is the reaction of individuals that determines the result and on which, in the last analysis, hangs the fate of the world. It is the township council only that reaches the individual and by translating the messages of the Federal Government into prompt and thorough action, makes our national resources the determining factor for victory."

The State Council points out further, that only the framework of township councils can be created by appointment. "The whole community must be aroused and moulded into a war organization. In a sense, your work of township organization can never be completed. You are dealing with a dynamic element which needs constant attention."

The State Council urges "in order that the mobilization of the nation for the war can be rapidly and effectively accomplished," the township councils of defense set out to accomplish two things, as follows:

(1) Make your township council organization a 100 per cent organization, both in the number of townships organized and in the number of citizens reached.

(2) Remember that your task only begins with the creation of your Township Councils. You have the responsibility of keeping the Councils interested, of preventing a relapse into inertia after the first excitement of organizing. Form the habit of making the County Council of Defense merely a clearing house for the war activities of your County. Pass everything on to the Township Councils that, in its nature, can be handled by them. By telling them the results of efficient community work, by continually setting new tasks, and by citing the achievements of other Township Councils, keep them on their mettle. Keep them constantly fit to put over every war activity you or the State Council may ask or that the nation may require; and by getting them fit, maintain the war morale of the Country.

In a scientific distribution of sugar under the regulations of the U. S. food administration, J. E. Lager, head of the sugar division in the office of the federal food Administra-

6 MEN ARE HELD IN 2ND INDIANA

This Number of Draft Age Who Will Have to "Sit Tight" and Await Developments.

SIX MAY ENLIST ELSEWHERE

Byron Cowing Receives Word That Registrants in Artillery Can Not Get Discharges.

The war department has gone fifty-fifty in dealing with the granting of discharges to the twelve Rush county men enlisted in the Second Indiana artillery.

With the refusal of the war department to allow men within the draft age who are members of the artillery unit to enlist in either the army, navy or marine corps, six Rush county men who have attempted to obtain discharges from the organization in order that they might enlist elsewhere, have found there is nothing for them to do but to "sit tight" and await developments.

Orders to this effect were received this morning by Byron S. Cowing, who organized the Rush county portion of the company. Cowing attempted on various occasions to secure his discharge from the outfit in order that he might enlist in the navy but his enlistment in that branch was cut off by the most recent order of the war department.

Other members of the outfit from this county who will be forced to await the action of the draft board or of some movement of the artillery unit, are Leslie Trobaugh, James E. Brown, Harry Hendricks, Roy Lee and Ralph Clarkson.

There are six other members of the artillery unit, however, to whom the restrictions do not apply, these being men either above or below the draft age. The applicant for their discharge from this branch of the service must be accompanied by a certificate from the recruiting officer showing that the applicant has been accepted for service in the event that his discharge is accepted.

The members of the unit who may be able to secure discharges for enlistment elsewhere include Everett Lee, Ralph McCorkle, William Stiers, Albert Pea, Raymond Clifford and James Cregar.

July 25, 1917—Russian guards at Tarnopol retreat without fighting. Germans launch another attack on Craonne.

July 25, 1916—Australians hold most of Pozieres. Russians make gains in Galicia.

July 25, 1915—Russians threaten flank of von Mackensen's army outside of Warsaw.

July 25, 1914—Austria breaks relations with Serbia.

tor for Indiana, issued 14,390 certificates for a total of 14,921,855 pounds of sugar, all but 1,009,165 pounds of this amount having already been distributed in Indiana during the months of July. Further restrictions imposed by the administration are expected to reduce the volume of consumption during August and September to 70 per cent of the July consumption.

Germany is becoming so fearful of her inability to import raw materials after the war, that she thinks she may have to export men instead of goods. The prospect of having any appreciable number of Germans enter a country would be almost enough to induce that country to escape it by relinquishing raw materials to Central Europe.

Press dispatches announce that America is buying army clothes, including both underclothing and uniforms, from English mills. And yet there are some people so dense that they cannot see that England is ready to compete in our markets after the war, unless the tariff rates shall be restored.

Exporters endorse "Made in America," says the headline of a New York trade paper. Did you ever hear of the importers endorsing that sort of business? The next thing for the exporters to do is to endorse the protective tariff, as most of them do, individually.

40-Year Farm Loans are Repaid With Little Effort

WHICH would you rather do: Borrow \$1,000 for five years, paying \$60 a year interest, and then renew again and again and at the end of the last renewal still owe the \$1,000—or—would you rather borrow \$1,000, pay \$66.46 a year and at the end of 40 years NOT OWE ANYTHING?

The two plans suggested above show what the small additional sum of \$6.46 each year will do under our new Government plan of lending money on farms for 40 years. When you pay merely the interest on \$1,000 for 40 years, the total of your payments is \$2,400 (at \$60 a year) and you still owe the \$1,000. Under our plan your total payments for 40 years amount to \$2,658.40 (\$66.46 a year)—and you have paid the \$1,000 principal as well as the interest.

Under Government sanction, our joint stock land bank is lending money on Indiana and Illinois farms for 40-year periods. This long period protects you against the expense and risk of renewals incident to loans of 5 years or less.

The borrower will pay \$66.46 annually for each \$1,000 he borrows, the interest rate being 6%.

This annual payment includes interest

and such sum for application on the principal that the entire loan will be paid off at the end of the 40 years.

After five years from the date of the loan additional payments for the reduction or extinguishment of the principal debt may be made on any installment date.

Applications will be given prompt attention, and if the loan is accepted you will get the money in the shortest possible time.

We are ready to receive applications for and make loans of this character through the Fletcher Joint Stock Land Bank, which is the only one in Indiana. We will be glad to have your application, or to consult with you and furnish any other information that may be desired. Call and see us.

FARMERS TRUST COMPANY
Rushville, Indiana

Considerably Surprised

The other day a woman was considerably surprised, and many others would be if they but knew of the work we are doing—the success we are achieving in the cleaning of garments that have become spotted or soiled.

Ninety per cent of the people haven't the remotest idea of what actually can be done by our process. Old, soiled garments, faded and dirty, can be made to look like new with our wonderful harmless method. New gowns, accidentally spotted by fruit juice or colored liquids can be so treated as to leave absolutely no trace of the spot and positively without the slightest injury to the fabric.

You can safely trust your costliest garment or your most delicate fabrics to the careful attention of our skilled, experienced cleaners. Look around the house today and phone us to call and get what you consider your most difficult job. We will do it so promptly and so well that you will never worry over light things again.

That patriotism is foremost in the minds of the younger set, is evident from the number of hours of hard work knitted into the quilt which four young girls have completed to be sold for the benefit of the Red Cross. The Misses Clara Johnson, Emily Menzy, Jean Herkless, and Estella Poston who have made a beautifully designed quilt, are now ready to receive donations, the proceeds of which will go to the Red Cross. The date for the awarding of the quilt, which will be displayed in the window of the George C. Wyatt and company's store, will be announced later.

Miss Mary Bussard of Palestine, Ill., who is the house guest of Mr. and Mrs. O. F. Bussard of East Sixth street, was the guest of honor at a theatre party given last night by Mrs. Bussard. After attending the theatre, the girls were taken to a downtown candy kitchen, where lunch was served. The guests included the Misses Marjorie Clark, Josephine Schell, Jean Sparks, Marguerite Kelly, Reba Beale, Frances Bowen, Janet Dean and Phyllis Casady.

byville when Miss Mary English of that city and Samuel Brown of this city were married, the Rev. A. H. Pitkin, pastor of the First M. E. church officiating. Among the guests at the wedding were Mr. and Mrs. John English of this city.

Both Mr. and Mrs. Brown were formerly residents of Rush county, but for the past few years the bride had made her home in Shelbyville. They will reside in this city where Mr. Brown is engaged in business.

* * *

Mr. and Mrs. J. P. Scott and family entertained Sunday with a pitch-in dinner, when covers were laid for the following guests: Mr. and Mrs. J. B. Snyder, son Charles and daughter Mary, Mr. and Mrs. Jacob Huber and son Paul, Mrs. Kelley, Mrs. Mahoney, Mrs. A. J. Glaren and daughter Ruth, Harry Glaren of Munice and Miss Jeanette Nipp of Anderson.

The transaction of business dominated the regular meeting of the members of the W. R. C. in the G. A. R. room of the court house yesterday afternoon. Following an old custom, the members draped the charter in memory of Mrs. Mary Smith, who died in Lafayette recently, and the meeting was dismissed in the usual manner.

Mr. and Mrs. John Colestock entertained last night at their country home east of the city, honoring their son, Will Colestock, who left this morning with the local contingent of selected men for Camp Taylor. The color scheme of red, white and blue was appropriately carried out throughout the rooms of the home, and during the pleasant evening, dainty refreshments of ice cream and cake were served. Among the guests were the Rev. J. C. Reynolds and family, Don Brooks, Mr. and Mrs. Thomas Dickman and family, Mrs. John Sparks and grandson Lowell Sparks, Miss Gladys Becker, Fay Bitner and William Wilkinson.

—Frank English of Camp Taylor, Ky., spent Sunday with his parents, Mr. and Mrs. John English.

IN AN ENGLISH REST CAMP

John Kennedy Completes First Lap of Journey to France.

From a rest camp in England, the first direct word was received today from John Kennedy, son of Mr. and Mrs. E. L. Kennedy of this city, who left seven weeks ago for a foreign port.

Although disappointed because the outfit to which he was attached for the trip across was sent to Britain instead of direct to the vicinity of No Man's Land, where speedy action would be assured, Private Kennedy expressed a hope of securing a transfer soon to France where more warlike surroundings might be enjoyed than those which exist in an English rest camp. He enlisted almost a year ago in the signal corps but was transferred to the infirmary and is at present a member of Company C of the 354th infantry.

THOUSANDS SAY FAREWELL TO BOYS LEAVING TODAY
